Conscia is making new strategic acquisition in Denmark

Brøndby, September 17th, 2020, – Conscia, the expert in IT infrastructure and security solutions, has today acquired the Danish IT consulting company and VMware partner, Net IT.

A week ago, Conscia entered into a purchase agreement with the cyber security company Credocom and today the acquisition of consulting company Net IT, is announced. Net IT has offices in Vallensbæk and Odense, Denmark. By adding more specialized VMware competencies, Conscia segments its position even more in core deliveries to the network, the data center, and the mobile endpoints, just as Conscia's security solutions are strengthened.

Expansion of the most skilled VMware team in Denmark

Casper Andrup Larsen, founder and co-owner of Net IT, is very much looking forward to becoming part of Conscia and says, "As an expert house with a laser focus on the sharpest people and quality solutions, we look forward to being part of Conscia's talented consulting team. We now have significantly better opportunity to scale our services, and to get more people on the team, and also to help Conscia's customers to achieve even more value from their infrastructure."

Virtualization - great value and more security

With Net IT, Conscia will be the strongest at VMware in Denmark. Together, we can offer our customers the best data center virtualization solutions in the market, with high scalability, extended functionality, and rock solid security," says Henrik Møll, CTO, Conscia Denmark, and continues; " It has always been crucial for Conscia to have the deepest competencies and deliver highest quality to our customers, so we are very pleased to welcome Denmark's leading experts on VMware."

Another good match

"It's absolutely fantastic. Last week, we welcomed a team of security specialists from Credocom, and now we can welcome the VMware specialists from Net IT, who clearly fit the first acquisition as well as the Conscia team. We will be able to create even more value for our customers, and I am very much looking forward to the dialogues," says Conscia Denmark's Managing Director, Mette Louise Kaagaard, and continues: "At the same time, I see the two acquisitions as a great vote of confidence from our owners to all Conscia employees, that we have a great company that is ready for further growth."

About Conscia Denmark

Conscia builds Denmark's digital infrastructure. We provide IT infrastructure solutions and 24/7 services within network, data center, security, mobility, and cloud. Together with our customers, we strive to get the greatest possible benefits from the latest technologies. We want to be the most skilled in our areas and combine a deep professionalism with the right attitude to create value among customers, that the projects succeed, and that tasks are solved quickly and efficiently. About Net IT

Net IT is Denmark's only consulting company with 100% focus on VMware, which provides quality solutions to larger and smaller companies in Denmark and abroad. Net IT's employees are the leading experts in Denmark and the Nordic countries on VMware, and therefore they have a special focus on virtualization solutions within server, network, desktop and application. The team will become an integral part of Conscia and move in as soon as possible.
